- b) (60) GE Freestanding 5.0 cuft electric range, white, model no. JBS160DMWW, with ~~50A-120V/208V 3 pole, 4 or three wire electric cord to fit #14-50R receptacle.~~The existing electrical is 40A-120V/220V, 3 or 4 wire electric cord.
- c) Vendor shall include delivery and set up only. And removal of old appliances. Replace with:  
Vendor shall include delivery, and installation and setup. And removal of old appliances.

#### Answers to Questions:

Would bids be accepted for delivery only of appliances? **No, Vendor shall remove old appliances**

Or will bidders be required to install new appliances and remove existing appliances? **Yes, correct**

Will the rooms be occupied? **Yes**

How many floors are the buildings these are going into? **There are nine buildings with 2 to 3 floors with exterior walkways and entrance**

Will there be elevator access for the install removal team? **No**

Is there any leeway on the two-week delivery window? **No**

Based upon my experience it would be best to install the appliances after construction is completed as the appliances will likely get dirty & potentially damaged if installed while the building is under construction. The delivery team would not be able to return at a later date after delivery to complete the installations. **These apartments are not under construction**
