# ‘Talking Budget 101’

## **Q: What are the 4 digit account codes for?**

A: The 4 digit account is the Pool Budget Account Code used for Budget transactions **only** (Budget set-up and Budget (Transfers) Adjustments. The consolidating of accounts according to like type expenditure categories provides for greater and easier access to spending categories (Supplies, Travel, Contracts and Services, etc.)

## **Q: What happened to the previous accounts codes?**

A: The previous Account Codes are ever-present. They are still used to process Requisitions, Encumbrances, PAF’s and other financial transactions – Travel remains still 73402, Office Supplies remains 73001, Postage remains 73603...etc. (see a complete listing at the end of this document)

## **Q: What is the benefit of using a pool account for budgeting?**

A: A significant reduction in the number of budget adjustments (transfers). **No need for transfers between Account Codes that are in the same Pool.** The Budget Pool Account amount is available for all accounts assigned to that pool.

## **Q: How will I know what accounts are assigned to that pool?**

A: Budget Pool account listing is provided at the end of this document.

## **Q: How will budget transfers be processed?**

A: Continue to submit Budget Transfer/Change (Adjustment) Forms and other adjustments for the General and Auxiliary Funds, to the Budget Office for processing.

## **Understanding Alabama A&M University's (AAMU's) Accounting Distribution (Account Number/FOAPAL String)**

The Accounting Distribution is a series of numbers that identifies how the university's expenses, revenues, assets and liabilities are to be posted (recorded). These postings are ultimately reflected in all reports where financial information is presented. These reports range from surveys requested by external entities to annual financial reports. Therefore, it is imperative that correct and complete coding be used when preparing or entering documents (requisitions, purchase orders, wage forms, travel requests, etc.). **Incorrect coding will result in incorrect reporting.**

Below are an outline and brief description of the components of the accounting distribution. The term Accounting Distribution may also be referred to as the FOAPAL String or Account Number. Care should be exercised not to confuse the term *Account Number* with the term *Account Code*. The *Account Code* is a component of the *Account Number*.

### Components of the Accounting Distribution/Account Number/FOAPAL String:

The four components of the AAMU Accounting Distribution are:

- **Fund**
- **Organization**
- **Account**
- **Program**
- Activity Code (currently not used)
- Location Code (currently not used)

Components may be numeric or alpha-numeric with a maximum of six characters each.

**Fund Code (*Fund*)** – The first component identifies the fund(s) to which transactions are posted. Funds may be thought of as a way to segregate and identify transactions by funding source or use. Examples are:

100001—Unrestricted  
2xxxxx—Restricted  
3xxxxx—Auxiliary

**Organization Code (*Org*)** – The second component may be thought of as the number used to identify the department that a transaction is applicable to. Examples are:

202062 - Chemistry  
21700 - Learning Resource Center  
40000 - Student Affairs  
304001 - Physical Plant Administration

**Account Code (*Acct*)** – The third component identifies the specific expense or revenue; asset or liability account to which transactions are posted. AAMU’s Account codes are normally five numeric characters in length. Revenue Account Codes begin with “5”, Expense Account Codes begin with “7”, and Salary, Wage & Fringe Benefit Account Codes begin “6”. Examples are:

Expense

73403—In State Travel

73603—Postage

73001—Office Supplies

61001—Salaries Instruction

Revenue

53201—Other Miscellaneous Revenue

51001—Tuition Undergraduate

**Program Code (*Prog*)** – The fourth component utilized. The Program Code (*a three digit number*) generally identifies the functional category to which transactions are to be posted. Functional categories provide for a broader summary of expenditure and revenue transactions according to the general purpose or function of the unit.

Examples:

100—Instruction

140—Research

160—Public Service

250—Academic Support

200—Library

300—Student Services

500—Institutional Support

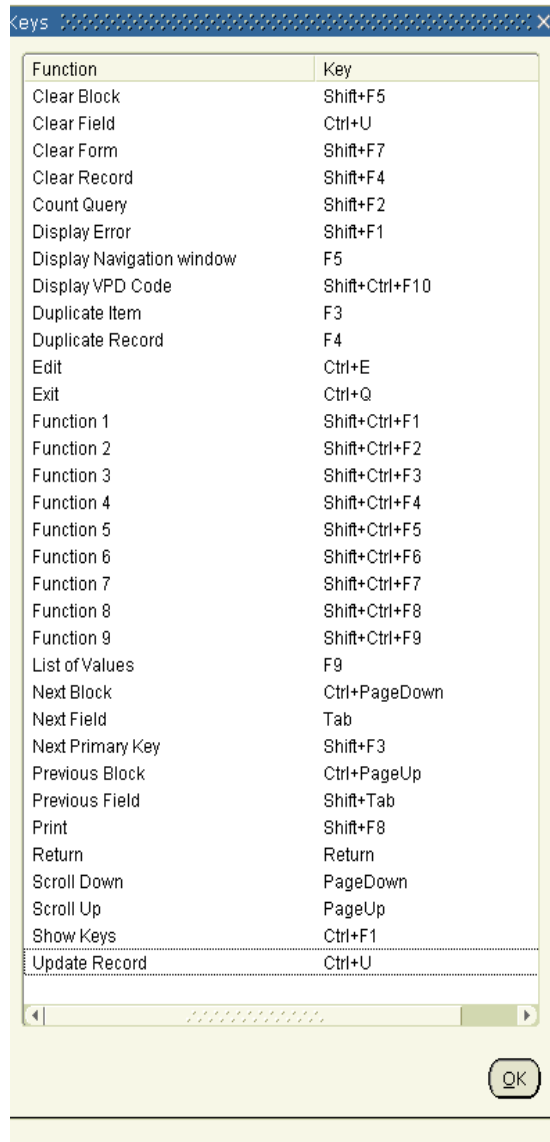

600—Physical Plant

800—Student Aid

The above is intended to provide an understanding of AAMU’s Accounting Distribution structure. The examples referenced are actual numbers and do not represent the complete chart of accounts. A complete listing of Account Codes grouped according to their respective Pooled Accounts is included at the end of this document. However, with the appropriate access to and understanding of Banner you should be able to perform queries to access needed accounting distribution information.

# Banner Navigation Tips and Information

1. The drill-down arrow  : takes you to a validation table where queries can be performed to identify various Banner parameters such as Fund Code, Org Code etc.
2. Function keys: are keys or key combinations that provide an additional way to navigate Banner. See list below.

| Function                  | Key            |
|---------------------------|----------------|
| Clear Block               | Shift+F5       |
| Clear Field               | Ctrl+U         |
| Clear Form                | Shift+F7       |
| Clear Record              | Shift+F4       |
| Count Query               | Shift+F2       |
| Display Error             | Shift+F1       |
| Display Navigation window | F5             |
| Display VPD Code          | Shift+Ctrl+F10 |
| Duplicate Item            | F3             |
| Duplicate Record          | F4             |
| Edit                      | Ctrl+E         |
| Exit                      | Ctrl+Q         |
| Function 1                | Shift+Ctrl+F1  |
| Function 2                | Shift+Ctrl+F2  |
| Function 3                | Shift+Ctrl+F3  |
| Function 4                | Shift+Ctrl+F4  |
| Function 5                | Shift+Ctrl+F5  |
| Function 6                | Shift+Ctrl+F6  |
| Function 7                | Shift+Ctrl+F7  |
| Function 8                | Shift+Ctrl+F8  |
| Function 9                | Shift+Ctrl+F9  |
| List of Values            | F9             |
| Next Block                | Ctrl+PageDown  |
| Next Field                | Tab            |
| Next Primary Key          | Shift+F3       |
| Previous Block            | Ctrl+PageUp    |
| Previous Field            | Shift+Tab      |
| Print                     | Shift+F8       |
| Return                    | Return         |
| Scroll Down               | PageDown       |
| Scroll Up                 | PageUp         |
| Show Keys                 | Ctrl+F1        |
| Update Record             | Ctrl+U         |

3. The percent sign (%) is a wild card when performing a query.

4. Information / free form: These fields can be used for providing additional information for an item, such as additional description.
  
5. **Always read the bottom of your screen.** Messages will appear at the bottom of the screen to notify you of errors, completion of a document, etc.
  
6. **NEVER GIVE YOUR PASSWORD TO ANYONE.** Doing so is a violation of IT procedures. The user is fully responsible for postings or changes made under his or her login.

# Viewing Your Budget Using FGIBAVL

## Step 1: Access Budget Availability Status Form

- **Upon logging into Banner in the Go To field:** *Type FGIBAVL*
- **Chart (Required Field):** *Enter N*
- **Fiscal Year (Required Field):** *Enter the last two digits of the Fiscal Year*
- **Commit Indicator:** *Select Both to get the full balance*
- **Fund (Required Field):** *Enter the Fund Code*
- **Organization (Required Field):** *Enter the Organization Code*
- **Account Code (Required Field):** *Enter the Account Code – To get all expenditures it is recommended that you enter “6100” or “61001”. This field is hierarchy based. It will use the account you enter as a starting point to provide budget data. The recommended Pooled Account Code 6100 is at the beginning of the hierarchy and entering it will reflect all pooled accounts.*

Effective October 1, 2010 Pool Budgeting was implemented for General and Auxiliary Funds. Pool budgeting enhances the efficiency of budget set-up, adjustments, review, control, and reporting. It eliminates the need to budget each specific line item account code where funds are projected to be spent.

Pooled budgeting groups expenditure account codes in broad categories. Example - Office Supplies and Computer Supplies are grouped or “pooled” in the Supplies Pool. As long as sufficient funds are available in the Supplies Pool either of these items may be purchased. **Pooled Account Codes are only used for establishing or adjusting budget (transferring/moving funds from one pooled account to another. Requisitions, PAF’s, Encumbrances, Receipts, and all other finance transactions require the use of the Account Code (generally 5 numbers long).**

- **Program** *Enter The program Code*
- *Click the **Next Block Icon** or Press the Control and Page Down keys simultaneously to bring up your account. Note the example below reflects line item and not pooled budgeting.*
