

## STUDY GUIDE FOR SOCIOLOGY EXIT EXAM (PAME II)

Define/understand the following terms, concepts, practices to create a comprehensive study guide for the exit exam.

### Sociology Concepts

sociological-imagination

social interactions

culture

material culture

nonmaterial culture

society

ethnocentrism

cultural relativity

culture shock

cultural diversity

subculture

society

norm

folkway

more

law

sanction

role

status position

achieved status

ascribed status

group

institution

monogamy

polygamy

nuclear family

extended family

blended family

social problem

deviant

biological theories of deviance

anomie theory

cultural transmission

labeling

crime

victimless crimes

crimes against the-person

crimes against-property

white collar crime

organized crime

Primary group  
Secondary group  
small groups  
reference group  
bureaucracy  
race  
ethnic group  
minority group  
assimilation  
pluralism  
secession  
social inequality  
social stratification  
caste  
class  
horizontal mobility  
Structure Function (Theory)  
Conflict (Theory)  
Interactionist Theory  
racism  
discrimination  
prejudice  
Prevention  
Intervention  
Social Reform  
Medical Model  
Poverty  
Domestic Violence

### **Research Methods**

research  
research methods  
scientific methodology  
research design  
population  
samples  
random samples  
representative-samples  
hypothesis  
interview  
observation  
secondary data  
variables  
independent variables  
dependent variables

research  
research methods  
scientific methodology  
research design  
population  
samples  
random samples  
representative-samples  
hypothesis  
interview  
observation  
secondary data  
variables  
independent variables  
dependent variables

operational definition  
reliability  
validity  
mean  
mode  
median  
standard deviation  
percentile  
parameter  
statistic  
levels of measurement (nominal, ordinal, interval ratio)  
bias

## **Social Theory**

Theory  
Concept  
Operational definition  
typology  
division of labor  
organic solidarity  
mechanic solidarity  
division of labor  
Father of Sociology?  
Id, Ego, Superego  
First Sociology course taught where?  
Comte (Basic info)  
Law of Three Stages(do not need to know them)  
Durkheim (Basic info)  
Durkheim's four types of suicide  
Weber (Basic info)  
Weber's Types of Authority  
Marx (Basic info)  
Proletariat  
Bourgeoisie  
Petit bourgeoisie  
Freud (Basic info)  
Mead (Basic info)  
Value Free  
Anomie
